COMBINATORIAL ALGEBRAIC TOPOLOGY AND APPLICATIONS II

The workshop "Combinatorial algebraic topology and applications II" is the second edition of the eponymous workshop held in Pisa, at the Centro di Ricerca Matematica "E. De Giorgi", the 27th and 28th November 2023.

The main topics of the conference are combinatorial topology and algebraic topology (broadly intended), as well as their applications to different fields. The aim of the workshop is to gather researchers with common interest in the above topics and to create an atmosphere of discussion, where to share ideas. The workshop will consist of about ten one-hour talks from invited speakers, along with 30 minutes long contributed talks. The talks will cover both theoretical and applied aspects of the subjects.

CONFIRMED SPEAKERS:

FILIPPO CALLEGARO
Università di Pisa
PAOLA CRISTOFORI
Università di Modena e Reggio Emilia
BRENT EVERITT
University of York
DEJAN GOVC
University of Ljubljana
CLAUDIA LANDI
Università di Modena e Reggio Emilia

RAN LEVI
University of Aberdeen
MARTINO LUPINI
Università di Bologna
GIULIAMARIA MENARA
Università degli Studi di Trieste
MARIJA JELIC MILUTINOVIC
University of Belgrade

SPECIAL SESSION:

PATCHKORIA IRAKLI
University of Aberdeen
